"The ExaPad has improved our follicle visualization and shortened our OPU procedure time.

– Dr. C. Laurent,
Bovine Repro Specialist

Engineered for OPU Applications
ExaPad simplifies ovum pick-up with:

- **OPU-specific imaging presets**
- **Precise follicle measurement tools**
- **Compatible needle guides**
- **Supports bovine, equine, and small ruminant work**
- **Easy image capture & export**
- **WiFi and WiFi extension port**
- **TeamViewer; Demonstration, training & maintenance**

ExaPad ExaPad Mini

info@imv-technologies.com

ExaPad® / ExaPad Mini®

Next-Level Ultrasound Ovum Pickup

Precision. Performance. Portability.

Experience advanced imaging with ExaPad's Dual Beam Technology – the ideal ultrasound solution for Ovum Pick-Up procedures in veterinary reproductive medicine.

IMV TECHNOLOGIES. FOR LIFE.

Why Choose ExaPad range for OPU?

The ExaPad is purpose-built for reproductive specialists. Whether in-clinic or in the field, it offers:

- **Exceptional image quality**
- **Lightweight, compact design**
- **Fast startup & intuitive touchscreen**
- **Robust, splash-proof housing**
- **Battery operation for mobile use**

Its quiet, fanless operation and easy-to-clean design make it a practical, hygienic choice for daily OPU work.

Dual Beam Technology

Unrivaled Clarity in Reproductive Imaging

With Dual Beam Technology, the ExaPad transmits and receives two beams simultaneously, enhancing:

- **Tissue differentiation**
- **Contrast resolution**
- **Depth penetration**
- **Ovary & follicle visibility**

This means clearer views of complex reproductive anatomy and more confident OPU procedures.

Ovum Pick Up

All in one Transducer for Bovine and Equine

Compatible with all needle options. The OPU has a sealed probe with no screws, making it easy to clean and set up.

- **Biopsy line to predict the path of the needle before penetration**
- **Allow the user to aspirate follicles as small as 2 mm**
- **Radius of curvature available in two sizes; 10mm or 14mm**

The IMV ExaPad Range Advantage

- **Up to 2 hours battery life**
- **USB & Wi-Fi connectivity**
- **Real-time measurements**
- **Choice of Either a 32, 64 or 96 channel ExaPad**
- **Flat, sealed surface for easy disinfection**

Compact yet powerful, ExaPad fits effortlessly into any OPU workflow – no compromise on performance.
